Warrant for Town Meeting

To the inhabitants of the Town of Mont Vernon in the County of Hillsboro, in said State qualified to vote in Town Affairs, you are hereby notified to meet at the Town Hall, in said Mont Vernon, on Tuesday, March 11, 1919, at 10 o'clock in the forenoon to act on the following subjects:

1. To choose all necessary town officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.
3. To see if the town will vote to purchase a light two-horse road machine.
4. To see if the town will vote to have the hearse house moved to some convenient place and used as a store house.
5. To see what action the town will take regarding the maintenance of state highway.
6. To see if the town will vote to put in two additional lights around the square.
7. To see if the town will vote to raise and appropriate two hundred dollars for the library or act in relation thereto.
8. To see if the town will vote to raise and appropriate fifty dollars to be expended on the park.

CHARLES H. RAYMOND,
JOSEPH H. BLOOD,
GEORGE O. CARLETON,
Selectmen of Mont Vernon.

Report of Library Trustees

1918-1919

Lord Bacon, if I remember rightly, was the originator of a certain "memory gem" of the writer's school-days viz.—Reading maketh a full man, conference a ready man and writing an exact man."

Our library seems to be responsible for development along all these lines. The demand for books is great, the discussion brought about by the new books and the current magazine articles is a cause of much satisfaction to those interested, while the results in "papers," the data for which, are found by rummaging in the library shelves, cannot be under-estimated.

On the whole, we report a prosperous year. Although, owing to the high cost of everything, we have not enlarged as much as we had hoped from the increased appropriation of the town, we have, at least, "held our own."

During the temporary absence of Miss Mabel Spencer our able librarian for several years past, we have been very fortunate in her substitute, Miss Georgianna Flint, who is doing most excellent work.

Finally we wish to thank all our friends for their hearty co-operation in making the Daland Memorial Library a live institution and especially for the many gifts of books and magazines, and papers which have been received and are most fully appreciated.

JAY M. GLEASON,
WILLARD P. WOODS,
MAY V. TREVITT.

REPORT OF TREASURER OF TOWN LIBRARY

For the Year Ending Feb. 1, 1919.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Mont Vernon:

I herewith submit my second annual report as superintendent of the schools of Mont Vernon. There are at present 25 pupils attending school, 3 less than last year. Up to Jan. 24, when the East School was closed, there was a total of 30 pupils in school. The East School was closed because its membership became reduced to three, all of whom are rather young to begin school. There were nine pupils enrolled in this school during the fall term at different times.

The percent of attendance is most discouraging for those who are trying to advance the children's education. Very few towns have such an extremely poor record. It is absolutely certain that no teacher, however good, can teach absent pupils. Now the thing happens that must be expected, the pupils are behind in their grade in their work. The school work shows it. Of course some absence is necessary but I am sure that Mont Vernon pupils can attend more regularly and the proof is that nearly every other town in the state has a better record. I do not believe that there is any reason why Mont Vernon boys and girls are unable to do what other boys and girls actually do elsewhere. The pupils start the school day at home. Whether they even start at all or start on time depends on the home. The teacher will take them and work with them after they reach school but the parent's cooperation is absolutely essential at the start. The record this year is scarcely better so far than last. The number of tardinesses, especially, is positively disgraceful. Tardiness hinders school work and breeds bad habits. Unless parents grasp the importance of this matter and act accordingly, a large part of the money spent on our schools is wasted. What is the logic of maintaining schools for children and then keeping the children away? I have asked the teachers to keep up a campaign for better attendance and punctuality, but the parents must help, too. As a matter of fact the school law demands regular attendance.

Teachers' salaries must be \$14-16 a week. The time has passed into history when a competent teacher can be secured for less. Not a graduate from last year's class at Keene Normal School receives less than \$14 a week. Most of them get more. They deserve it. Teachers must be able to pay expenses and still have something left.

Mt. Vernon was the only one out of the 4 towns in this supervisory district which did not adopt medical inspection last March. I again recommend its adoption in the interest of child welfare. According to chapter 114, Laws, of 1917, an article relating to medical inspection must be put in the warrant every year until it is adopted.

In any town that adopts medical inspection the School Board appoints one or more physicians of not less than five years' experience who shall at least once a year examine every pupil and teacher and inspect the grounds and buildings. If any defects are found in a pupil, notice is sent to the parent or guardian, who is supposed to have the child treated by his regular physician. The school physician does not supplant the regular family doctor. He merely notifies parents of defects which he observes; further action then rests with the parent. If a parent or guardian protests in writing against the examination of his or her child, such child will not be examined by the school physician unless afflicted with a contagious disease.

The physical condition of each child is recorded, after the annual examination, on blank forms prepared by the state. Therefore at each examination it can readily be seen whether defects indicated by the previous examination have been remedied or allowed to grow worse. These records are accessible to proper persons at any time so that parents can have accurate information about the physical development of their children precisely as they receive information on report cards about the mental development. The examination by the school physician often reveals troubles which were either unknown or only mildly suspected and accordingly neglected. It is far better to attend to defects in their incipient stages when a cure is surer, easier and quicker. Very often a child's slow progress in his lessons is due to some physical ailment. The regular medical inspection discovers these cases and points out

the remedy. The annual examination includes tests of sight and hearing.

Schools were closed last fall four weeks on account of the epidemic. The time lost will be made up by shortening the Christmas and spring vacations each one week and extending the third term. The terms, therefore will be as follows:

1st. term	Sept. 3-Dec. 20	12 weeks
2nd. term	Dec. 30-Mar. 28	13 weeks
3rd. term	Apr. 7-June 20	11 weeks
		<hr/> 36 weeks

The Federal Bureau of Education thru its agents and the state departments of public instruction is organizing all over the country the United States School Garden Army which will comprise every boy and girl who will cultivate a garden. Thousands of pupils had gardens last year. In Mont Vernon 22 pupils had gardens and raised crops estimated as worth \$110. There is still great need for maximum food production and it is planned to beat last year's good record this coming season. Any boy or girl in school can enroll in this garden army. In each room a captain and lieutenants are appointed to assist the teacher in keeping up interest on the part of the "privates" and assisting in keeping records. Every member has a badge. Gardening will be studied in school according to outlines prepared by the directing state and national officers. The Government also furnishes pamphlets giving instructions and directions. Part of these have already been distributed. This is a thoro and well organized movement to inspire children with a love for gardening and help them plan and cultivate their own gardens.

I wish to express my appreciation of the cordial and helpful cooperation of School Board and teachers.

Respectfully submitted,

ALFRED W. SMITH.
